

Community Rating System (CRS)

Safer Communities, Lower Premiums

Jones Edmunds has been helping communities for over 15 years navigating the FEMA program and the Community Rating System. Our services include but are not limited to:

- Watershed Management Planning
- Stormwater Modeling
- Floodplain Management Program Evaluation
- Elevation Certificate Audit
- Local Mitigation Strategy
- CRS Activities Documentation
- GIS Analyses to Support CRS
- Map Information Service
- Program for Public Information and Outreach
- Floodplain Ordinance Review
- Repetitive Loss Area Delineation and Analysis
- Liaison Between Community and ISO

PROJECT HIGHLIGHT

Pinellas County

Pinellas County has made significant progress in improving their CRS rating, consistently relying on Jones Edmunds as their trusted partner for support and guidance throughout the process. With our help, the County improved their CRS rating from Class 7 to Class 2.

Jones Edmunds has supported the County's CRS program under a continuing services contract since 2014.

Jones Edmunds promote comprehensive floodplain management through mitigation and outreach
